

Waiomu Cafe

WAIOMU BEACH CAFE

JOURNEY TO

CARBON FREE / WASTE FREE / PREDATOR FREE

STEPS ALREADY TAKEN

Waiomu Beach Cafe follow a Triple Bottom Line philosophy with a focus on compostability and ethical delivery.

✓ Promote the use of keep cups.

✓ EV charger installed onsite.

✓ Donations made to Thames Coast Kiwi Care.

worth of coffee cups saved from landfill each year

50% waste diverted from landfill

ACTION PLAN

LOCAL FOOD MILES

Promote local food, lowering food-miles & supporting community.

PLASTIC FREE

Attempt to be a single-use plastic free cafe.

WASTE AUDIT

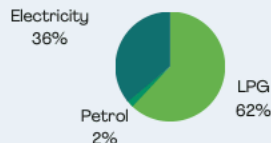

Carry out a waste audit to identify problem items.

2022 Sustainable assessment performed by instep™

SUSTAINABLE IDEAS

- Find an alternative for your biggest single use plastic item
- Consider re-usable cup loan scheme for locals
- Consider your electricity provider and if they generate from renewable sources
- Ask your supplier how best to prepare for BioLPG in the future, an LPG made from waste products
- Showcase a local ingredient seasonally
- Plant trees locally to balance your energy emissions

2022 CARBON FOOTPRINT

| FUEL: | ELECTRICITY: | TOTAL CARBON FOOTPRINT 2022 |
|---------------------------------|------------------------|-----------------------------|
| 2,340 kg LPG 1,000 Ls petrol | 31,750 kWh electricity | 11,366 kg CO2e |
| 7,334 kg CO2e | 4,032 kg CO2e | |

This carbon footprint is the equivalent of

43 trips from Thames to Hamilton

And would need the planting of

26 native trees to neutralize

2022 Sustainable assessment performed by instep™

Protect our special environment with simple actions
CARBON FREE - 'Switch off' power when not in use, save energy and money
WASTE FREE - Say no to single use 'Rubbish Cups', use a keep cup or have here
PREDATOR FREE - Save Coromandel Kiwi and support your local conservation group

Julie is well-known for sustainable practices at the cafe in beautiful Waiomu Bay. They source much of their food locally, organic where possible, and their Tesla and EV charging station allows guests to contribute to Thames Coast Kiwi Care. They have been using compostable (made from plants) cups and lids for years. Well on the path, yet pushing to improve 'Sustainability with a mind to a responsible approach regarding community, environment and ethical business'.
