- Shakespeare Cliff Historic Reserve - 2 hours return
- Lonely Bay - 20 minutes return to Shakespeare Cliff

Ferry Landing Wharf History

Ferry Landing stone steps and wharf was the first hand hewn wharf in Australasia, being built in the early 1830's for Gordon Browne who ran a water driven saw mill with Ranulph Dacre. The stone blocks, cut by Maori labourers, were taken from the adjacent bank. Many blocks are 1.8m long, 1.2m wide and 0.6m thick.
